Title: James Bones and his wife Mary Adams Genealogy

Date: unknown

Extent: 1 box

Scope and Content: A narrative genealogy of James Bones, his wife Mary Adams and their descendants. Material includes transcriptions of headstones wills and personal letters as well as family stories.

Name of Creator:

Administrative/Biographical History: Donor unknown

Several members of the Bones family appear to have migrated from Ireland to various places in Georgia and South Carolina. However, certain lines of this family have strong Augusta connections, having lived and done business here. It appears that some of the last descendants recorded in the narrative include the Whitney family of Augusta Georgia.

This may be a copy of the original manuscript as the paper is thin enough to suggest it is a carbon copy. However, the typescript is black and very legible.

Conditions governing access: restrictions Manuscript needs preservation measures.
